Sunny Day, Varna, Bulgaria

16th International Conference
SCENAR Therapy

Dear colleagues and friends!

We are happy to announce that from 4th to 10th September 2010 Bulgaria will host the most significant SCENAR event of the year – the **16th International scientific and practical conference of SCENAR therapy and SCENAR expertise**, celebrating the 30th anniversary of OKB RITM and the 10th anniversary of SCENAR Center – Bulgaria.

This most important forum of the international SCENAR society is being organized by the inventors and producers of the SCENAR devices, OKB RITM – Russia, SCENAR Center – Bulgaria, Kosmed International B.V. (The Netherlands), International SCENAR Academy – Moscow, RITM Australia, RITM SCENAR Institute – Australia and SCENAR Association – Bulgaria. Additional assistance is provided by our partners: SCENAR Health USA, TOMATEX LLC (USA), SCENAR Health Canada, SCENAR Health, Australia, OLMC "SCENAR-Ukraine" and Eco-Positiva (Croatia).

The decision for having the conference in Bulgaria is aimed at providing the most appropriate environment for carrying out a high-level international meeting, combining the scientific work and exchange of experience, on one side, with the pleasure of communicating with colleagues and relaxation with friends on the charming Bulgarian Black Sea coast. Many of you remember the [10th international conference at Sunny Beach in 2003](#) and the [12th International conference in Varna, 2006](#) - so you know their organization was highly appraised by all participants. We will do our best to organize the 16th conference even better, so that it becomes a useful and exciting experience for everyone.

The conference will provide:

- Different types and levels of training, part of them free of charge.
- Maintenance and technical inspection of your SCENAR devices.
- Upgrades and repairs at discounted prices.
- Introduction to the latest scientific researches in SCENAR therapy.
- A round table with subjects selected by the participants
- Each participant will receive an attendance certificate and those who join any type of training program – a corresponding document.
- All conference papers and documents with the latest news in SCENAR theory and practice;
- Interesting cultural and entertainment program.

Some of the best SCENAR experts in the world have already confirmed their participation! You will be able to communicate with world-renowned SCENAR therapists from the East and the West with many years of experience and outstanding results. You will have a chance to share your experience and to seek solutions for any problems in your work. You will be able to meet personally with scientists, doctors, constructors, and engineers – authors of this unique technology. You will benefit from raising your qualification and gaining valuable experience and self-confidence.

Terms and conditions

Venue: Sunny Day Resort

Sunny Day resort is one of the most beautiful holiday destinations in Bulgaria. It will definitely fascinate you and will meet your expectations for a quiet holiday and complete recreation and relaxation. The convenient location, the well-equipped halls and the technical facilities, combined with the experience of the specialists, make "Sunny Day" a well-known and preferred

venue for various business meetings, corporate events, seminars, conferences, presentations, negotiations, congresses, business lunches and official cocktail parties.

- 10 km northeast of Varna, the summer capital of Bulgaria
- 16 km from the airport
- 8 km south of the Golden Sands resort

Sunny Day resort is in the immediate vicinity of the first Bulgarian Black Sea resort "St. Constantine". The complex has a capacity of about 1,300 beds in four elegant hotels - Palace Hotel, Marina Hotel, Veronika Hotel and Mirage Hotel, built on the very seashore. Within just a few steps you can feel the warm sand under your toes.

Nature has provided the unique conditions for rest and relaxation:

- a cove with excellent eastern exposure;
- a spacious strip of beach, 1 km long and 20 to 80 m wide;
- a calm sea with shallow sandy bottom;
- a splendid natural park with rare tree species;
- mineral waters springs, with curative properties unique for Bulgaria.

The climate in the Sunny Day resort region is very favorable for holidays in Bulgaria and is similar to that of the leading Mediterranean resorts – the average monthly air temperatures in the summer are 23-28°C, and of the sea water - 24-25°C, with about 1,700 hours of sunshine from May to September.

Conference dates:

4 – 10 September 2010

The early September weather is usually perfect for both working and holidays – temperature is over 20°C, and the sea is warm and still.

A presentation covering the latest innovations and devices will take place on the 4th September.

Upgrades, repairs and service maintenance of devices will be arranged after 5th September.

All participants are encouraged to inform us of the workshops and schools that are going to attend, schools that would like to be held (apart from those listed above) as well as suggestion topics for round-table discussions. This will allow us to plan the schedule of all schools and workshops, replace some of them or add new ones.

The duration of all courses is 2 or 3 days. The price of Master class is EUR 150 and all other courses are EUR 100.

Each participant will receive an attendance certificate and those who join any type of training will receive a document from the International SCENAR Academy.

We believe that your participation in the 16th International Scientific and Practical Conference of SCENAR Therapy and SCENAR Expertise will help you establish yourselves as SCENAR therapists and will open new horizons for your professional development. The organizing committee will do everything possible to ensure optimal and favorable terms for you. Top professionals will be involved in organizing the main scientific program, as well as the complementary cultural and entertainment events.

We are also planning to provide other benefits for the participants.

We hope you will express your views and specific suggestions so we can do our best to implement them.
